The image displays a mobile app wireframe. At the top, a header contains the text "App Name" on the left and three white circles on the right. Below the header is a user profile bar featuring a person icon placeholder and the name "John Doe". The main body of the app has a large heading labeled "Title", followed by five lines of placeholder text ("lorem ipsum..."). This is followed by a subheading labeled "Subheading" and four more lines of placeholder text. At the bottom, a rounded rectangle contains the word "Question" centered at the top. Below it are four radio button options, each labeled "Option". At the very bottom of this rectangle is a blue button with the text "Next".
